## About the Program

The project management field is a critical profession that involves a deep understanding of process, skills, tools, techniques, and deliverables to project-specific tasks, activities, events, or duties towards completion to ensure the best way to present success by meeting requirements and goals. Project management skills are highly appreciated and valued in all industries. This field is all about planning, leading, and executing projects in stringent budgets before meeting deadlines.

PMP Certification Course is professionally designed for those who want to enhance their base and skills in other disciplines at a management level. Wissenhive's experts focused on industry-relevant skills, core competencies, tailoring considerations, and emerging practices at several different levels to boost pupil's careers that will help them in handling complex and large projects.

## Key Training Features

-  Accredited Training Partner
-  Lifetime Training Access
-  Access to Digital Materials by PMI
-  Study Guides
-  Assessments
-  24/7 support
-  Flexible Scheduling

The PMP certification is designed by project professionals, for project professionals and validates that you are among the best—highly skilled in:

- **People:** emphasizing the soft skills you need to effectively lead a project team in today's changing environment.
- **Process:** reinforcing the technical aspects of successfully managing projects.
- **Business Environment:** highlighting the connection between projects and organizational strategy.

PMP certification validates that you have the project leadership skills employers seek. The new PMP includes three key approaches:

- Predictive (waterfall)
- Agile
- Hybrid

## What you will learn?

- Project Integration Management
- Project Scope Management
- Project Schedule Management
- Project Cost Management
- Project Quality Management
- Project Resource Management
- Project Communication Management
- Project Risk Management
- Project Procurement Management
- Project Stakeholder Management

## Why PMP?

1. Improve your salary
2. Provide a platform for Worldwide Recognition
3. Upgrade your leadership qualities
4. Improve your problem-solving skills
5. Enhance Risk Management Skills
6. Provide utility across industries

## Pre- requisites

Wissenhive has no pre- requisites, however PMI recommend the following

A four-year degree

36 months leading projects

35 hours of project management education/training or CAPM® Certification

— OR —

A high school diploma or an associate's degree (or global equivalent)

60 months leading projects

35 hours of project management education/training or CAPM® Certification

## PMP Examination

### 1. Apply to Take Your Exam:

Validate your project management experience and education by filling up the application form.  
PMI takes takes 5 working days to update the status:

- Status 1- Accepted  
If application is accepted the individual is now able to pay the examinations fees and schedule the exam
- Status 2- Rejected  
If application is rejected the individual will be required to complete a form and take necessary signatures to prove the experience mentioned in the application and share it with PMI for approval.

### 2. Take your PMP Exam

Once your application has been approved and have paid the examination voucher you will be required to select the center for examination.

Currently the exams can be taken online via **PearsonVue**.

Select the dates and be prepared on the day of the examination.

For more information use the link below:

<https://www.pmi.org/certifications/certification-resources/process/online-proctored-testing>

## PMP Examination

### 3. Maintain Your Certification

#### Continuing Certification Requirements (CCR) Program

Earning your certification is a big step. Maintaining it shouldn't have to be. Our Continuing Certification Requirements (CCR) Program is designed so you can grow and develop the skills that organizations are seeking — all the while maintaining your certification status.

All PMI certification holders must earn PDUs to actively maintain their PMI certification(s). These PDUs can be earned through various professional development activities that center on one of two areas:

1. Education – Learning opportunities that allow you to expand and enhance your technical, leadership, or strategic and business management skills.
2. Giving back to the Profession – Activities that enable you to share and utilize your knowledge and skills as a means to contribute to and help build the profession.

## Education

Research has shown that employers need practitioners with more than just technical domain skills. Leadership and business intelligence skills are imperative to support long-range strategic objectives that contribute to their success. The ideal skill set is a combination of technical, leadership, and strategic and business management competency—what we call the PMI Talent Triangle.

Technical project management: Knowledge, skills and behaviors related to specific domains of Project, Program and Portfolio Management.

Leadership: Knowledge, skills and behaviors specific to leadership-oriented, cross-cutting activities that help an organization achieve its business goals.

Strategic and business management: Knowledge of and expertise in the industry or organization that enhances performance and better delivers business outcomes.

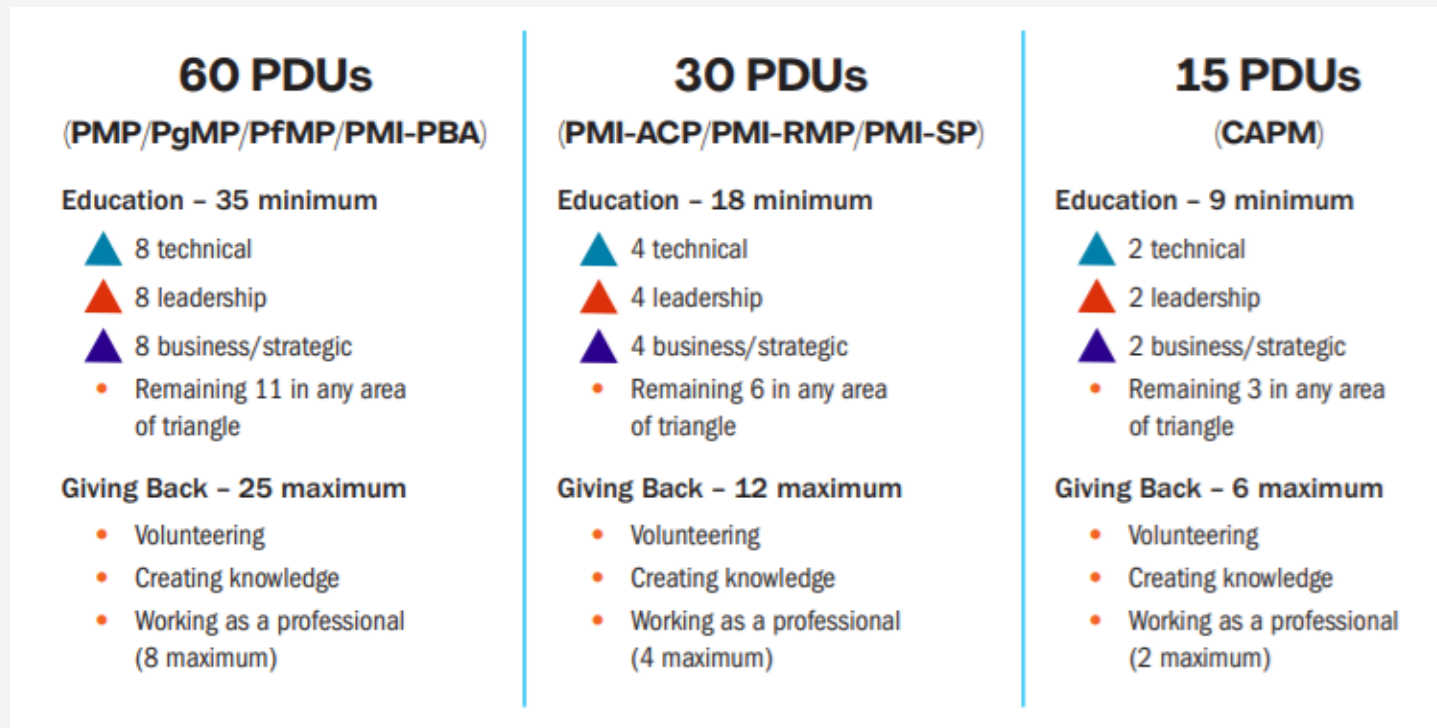

## **Giving Back to the Profession**

PMI recognizes that sharing your knowledge and actively applying your skills is a valuable means to contribute to the profession. Additionally, many find that giving back is an enriching learning experience that enhances your professional development in different ways. That is why giving back activities are PDU eligible and incorporated into the CCR program.

It is important to note that giving back is an optional manner in which to earn PDUs. The giving back requirements listed above are the maximum number of PDUs allowed for each certification in this category. If giving back PDUs are earned, the total cannot exceed the limits listed above.

Refer to the infographic below for more information on how you can maintain PDUs for your certification(s).

## CCR Process

There are a few key steps that encompass the process around participation in the CCR program.

## Course Content
